

# Abhishek Chaubey

## Computer Science Engineer

Hi, I'm Abhishek Chaubey, an experienced Computer Science Engineer specializing in web development. With a strong background in **PHP frameworks** and various **CMS platforms**, including **WordPress**, I excel in creating seamless and robust web solutions. My frontend skills in **Angular, React, HTML, CSS, and Bootstrap**, combined with my expertise in database management, allow me to build comprehensive and high-performing websites. Throughout my career, I've successfully delivered innovative and engaging digital experiences. I'm dedicated to leveraging my expertise to drive impactful web projects and contribute to the success of my team and organization.

## PERSONAL PROJECTS

### Personal Finance Tracker

- **Description** : I developed a robust Personal Finance Tracker web application designed to help users manage their finances effortlessly. The platform includes features such as income and expense tracking, budget planning, expense categorization, and financial goal setting.
- **Technologies Used** : PHP, MySQL for database management, and custom UI design using HTML, CSS, and JavaScript.
- **Highlight Skills** : Database management, user authentication, UI/UX design, and PHP backend development.

### Job Board Platform

- **Description** : I created a versatile Job Board Platform where employers can post job listings and candidates can search and apply for positions. The platform incorporates advanced search capabilities, filtering options, and efficient application management to streamline the hiring process.
- **Technologies Used** : WordPress, PHP for custom plugin development, and MySQL for managing job listings and applications.
- **Highlight Skills** : Advanced search and filtering, application management, PHP development, and WordPress customization.
- **Some Codeigniter Projects links are below**
- Resume Library [🔗](#)
- Rothco Ecommerce [🔗](#)
- VMware cloud computing [🔗](#)
